

WILDABOUT WALKABOUT

**With my house on my back, I'm tiny and slow,
In France, my name is escargot!**

**HINT: "Check me out" near the entrance of a building
filled with books!**

**You won't find tapers around town today,
But you might spot a fossil while you play!**

HINT: Explore Johnson City's Natural Playground!

**Near the "Wildabout" mural, on the ground,
Coyote footprints can be found.**

HINT: Try boulder hopping for a better view.

**In King Commons, after the rain,
You can spy me near the drain.**

**HINT: Follow the concrete path between the beer garden and
the JC sign!**

**This insect has climbed a wall, not a tree,
Watching artists work at #133.**

HINT: Look for me between burritos and bikes!

**My eyes are huge and I'm really wise
I play all night and sleep at sunrise.**

HINT: I watch from my perch as AI buys and sells.

**Some call me a beetle, a bird, or a bug,
But im always a "lady" just too tiny to hug!**

HINT: Look for the giant-sized children playing in the dirt.

**I look like a dog with a bush tail
I'm sneaky and sly and make Dora wail!**

**HINT: Looking for a lawyer? Me too!
(I ate the gingerbread man!)**

**I'll never win a race at the track,
But I've always got a home on my back.**

**HINT: I don't have much hair, but if I did, I'm in a good spot
for grooming.**

**I may be hairy and scary with many legs and eyes
And I might be named Charlotte or Peter Parker
depending on my size!**

HINT: Walk under the breezeway lights and look up!

**It only smells like the dump,
When you upset a skunk.**

HINT: A good place to meet for sweet smells and treats.

**This animal will fly away,
If you want to play.**

HINT: Don't offer this bird a cup of Joe.

**It's odd to find me flying up a brick wall;
I swim in the water and never walk nor crawl.**

**HINT: The rock bass is camped out near a village of
artists**

**A little bear came down from the mountain.
He is a few blocks away from the Lady of the
Fountain.**

HINT: He thinks all "little animals" are welcome here.

**Do my big claws scare you?
I would run away from you too!**

HINT: You can select to put your money here!

**The fifteen bronze animals that have taken up permanent
residence around our beloved Downtown Johnson City,
were brought to life by students from the
ETSU Department of Art & Design.**

**A big thank you to the Johnson City Public Arts Committee,
Connect Downtown, Johnson City Design Committee,
Johnson City Public Works, Johnson City Public Library,
Donna McCalman, Kathy Calhoun and Nora Jane Wexler
for their work in this project allowing the
Wildabout Walkabout to happen.**
